**Thursday  
January 5  
8:30 PM  
on Zoom**

**DR. ERIC MANDEL, DIRECTOR  
MIDDLE EAST POLITICAL INFORMATION NETWORK**

In this Zoom talk, we will analyze the threat of Iranian nuclear weapon, Israel's "War between the Wars" with Hezbollah, and the ring of fire Iran has created to surround and threaten Israel from all sides. We will take a deep dive into what Palestinians want and if they can accept a Jewish state in any territorial dimension. Finally, we will examine Anti-Zionism and the BDS movement, especially on the college campus, which are no less lethal a threat to Israel than a nuclear weapon.

*Dr. Mandel is the Director of MEPIN (Middle East Political Information Network). He regularly briefs members of Congress and their foreign policy aides and is the Senior Security Editor for the Jerusalem Report. He is a regular contributor to The Hill and the Jerusalem Post.*
