presents

## **“A Jewish Perspective on the Environment”**

The Torah calls upon us to be Shomrei Adama-Stewards of the Earth- in order to protect and preserve it for future generations. Please join us for a workshop with Rabbi Miriam Lichtenfeld, a Jewish educator, scholar, and environmental activist who will lead us in a discussion about why we, as Jews, need to be concerned about the environment using Jewish texts as our guide. We will learn how we could make changes in our homes, Temple and community to promote environmental stewardship.

**Sunday, January 21, 2024 at 7:00 P.M.**

**Presenter: Rabbi Miriam Lichtenfeld**

Educational Director, Temple Shaaray Tefila, NYC
